

18 POUNDS OF BLOOD

Is the average quantity in a healthy adult, but it is the quality of the blood that determines our strength to resist sickness. With weak blood we find cold hands and chilly feet; in children an aversion to study, and in adults rheumatic tendencies.

In changing seasons get abundant fresh air and take a spoonful of Scott's Emulsion after meals, because Scott's Emulsion is a rich blood-food that will increase both quantity and quality of the blood while it warms the body and helps carry off the impurities.

When multitudes of people are to-day taking Scott's Emulsion to avert winter sickness, and are giving it to their children, it is careless to neglect its benefits. Look out for substitutes.

Scott & Bowne, Bloomfield, N. J. 15-26

REAL ESTATE TRANSFERS

(By Chickasaw Title Co.)

YOU'RE BILIOUS! LET "CASCARETS" LIVE LIVER AND BOWELS

Don't stay headachy, constipated with breath bad and stomach sour

Get a 10-cent box now.

You men and women who can't get feeling right—who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel worn out.

Are you keeping your bowels clean with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.

VALSPAR

IS THE CHEAPEST AND THE BEST VARNISH

Costs more and is worth more than ordinary varnish.

RESISTS BOTH HEAT AND COLD

Inside and outside use, or on Carriages and Automobiles.

ASK THE MEN BEHIND THE COUNTER TO SHOW YOU.

T. N. COLEMAN

POOLEVILLE.

Pooleville, Okla., Nov. 24.—Now that the church is nearly completed, great interest is felt in securing an instrument for it. On Saturday evening Mrs. Roy Brady gave a box supper at the school house to raise

Nadine Face Powder

(In Green Boxes Only)

Keeps The Complexion Beautiful Soft and velvety. Money back if not entirely pleased. Nadine is pure and harmless. Adheres until washed off. Prevents sunburn and return of discolorations. A million delighted users prove its value. Tints: Flesh, Pink, Brunette, White. By Toilet Counters or Mail, 50c. National Toilet Company, Paris, Tenn.

funds for purchasing a piano. That the sweetest spirit prevailed was evidenced by the way in which every one wanted to do what they could to aid the cause. The young ladies prepared beautifully decorated boxes, and these were sold to the highest bidder. The highest bid was made by L. O. Majors who paid the nice little sum of \$4.50 for a box, while Mr. Rundles was second, paying \$3.80 for a box. Mr. Eaves and Mr. Majors purchased the greatest number of boxes, and suggested that the contents be spread out picnic style, and all invited to partake thereof, thus increasing the good feeling.

Much laughter was enjoyed at Mr. Eaves' expense when it was found that one of his boxes contained a piece of bacon, a dill pickle, and a piece of corn bread.

This was a joke of some boy and brought to the fund two dollars and fifty cents. Forty-three dollars and ninety cents was raised, to which Mr. Poole, who was unavoidably absent, added five dollars on the following day.

Pooleville was honored by the presence of K. W. Dawson on Tuesday afternoon, and since he had contributed so handsomely to the church fund at the request of Mrs. Roy Brady, a stranger, interest was felt that the two should meet.

Mr. Majors and Mr. Dawson made a pleasant call at the Brady home, and Mrs. Brady was delighted to meet the broad philanthropist. In parting, Mr. Dawson laughingly made a threat which all are hoping he will keep, to come and preach in the new church when it is completed.

E. R. Poole has returned from a business trip to Ardmore.

R. D. Freeman is a visitor to Ardmore.

Mr. and Mrs. Henson of Ardmore are visiting Mrs. Kern.

Mr. and Mrs. Stubblefield are moving to Pooleville from Roundup.

Mrs. Betsy Mauldin is moving into her new home on Main street.

Mr. and Mrs. Barney Barnes visited Ardmore for several days last week. Mr. Barnes went on business, and Mrs. Barnes went to visit Mrs. Clarence Harris.

The opening of school is postponed to Monday, Jan. 29, on account of cotton picking still being good.

A PINE WHOOPING COUGH REMEDY.

Mothers, Dr. Bell's Pine-Tar-Honey is just the remedy for your children's cold ailments. The fact is that pine is a quick enemy of cold conditions. Its qualities loosen the mucous in the throat, soothe the lungs and open up the air passages. The combination of honey, soothing and pleasant, with the loosening pine quality makes this an ideal cough remedy for children. Each passing year brings for it, new friends. A family of growing children cannot afford to be without it. 25c a bottle.

NEW BRIDGE OVER CANADIAN

Katy Building Structure Six Feet Higher Than Flood Stage.

McAlester, Okla., Nov. 25.—The Missouri, Kansas & Texas railway announces that the new steel bridge spanning the South Canadian river just north of Canadian, Okla., will be completed and ready for use within the next thirty days.

The new bridge is being constructed at a cost of more than \$250,000 and will entail an expenditure of \$1,000,000. The remaining \$750,000 will be used in the grade of the main line in eastern Oklahoma and in improving the approaches to the new bridge. Chief Engineer S. B. Fisher stated that in his opinion the new bridge will do away with high water troubles at that point, as the bridge is six feet higher than the highest flood-tide on the Canadian river ever known.

IF YOU NEED A MEDICINE YOU SHOULD HAVE THE BEST

Although there are hundreds of preparations advertised, there is only one that really stands out pre-eminent as a remedy for diseases of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root is not recommended for everything. A sworn certificate of purity is with every bottle. You may receive a sample size bottle of Swamp-Root by parcel post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents.

For sale at all drug stores in bottles of two sizes—50c and \$1.00. Also mention the Ardmore Daily Ardmoreite.

Loud Announcement.

Miss Hitta—"Clara has told everyone in the neighborhood of her engagement to you." Woodby Wed—"Indeed! Why, she promised not to whisper it to a soul." Miss Hitta—"Oh, she didn't whisper it—she shouted it."

\$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts through the blood on the mucous surfaces of the system, thereby destroying the foundation of the diseases, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. Cheney & Co., Toledo, Ohio. Sold by all Druggists, 75c.

Case of Hating Oneself.

Proprietor of a Concert Party (engaging a soprano)—"Now, I want you to understand, Miss Deerly, that I like my boys and girls to be one big family—no quarreling, no jealousy." Miss Deerly—"Oh, that's quite all right. I've never heard anything in the work of any other singer to give me the slightest cause for jealousy."

PRESIDENT FRANK M. GAULT MAKES EXCELLENT RECORD

The usual amount of press dope about what is being accomplished by the various state departments continues to be sent out. As is natural, all state officials are anxious to advance their stock in the public estimation with a view of being re-elected to public office. In the main, these stories are not accomplishing a great deal. The average taxpayer of this state has been listening for definite information to the effect that his money was being judiciously spent and that the amount of it to be extracted in the future might be materially lessened. In fact, mere generalities about economy have grown threadbare because the rule heretofore has shown a substantial increase month by month, and year by year in the aggregate cost of government.

President Frank Gault of the

Board of Agriculture is not what might be termed the "ideal" official in the minds of his brother state officers. He has smashed their red tape systems and ridiculed their ostentation until they have almost without exception slipped a knife in their sleeve for him. The facts are, however, that his methods are having at this time a marked influence on state government. His example must either be followed or those who ignore it suffer the consequences. The department of agriculture is now running on \$1,350 less per month than was being spent to conduct it one year ago. With over three hundred more students, the A. & M. college is being conducted on a basis that will mean a saving of over \$25,000 during the year and this saving is effected in the face of investments in live stock amounting to \$9,000 and over \$10,000 in improvements that have been paid for out of the maintenance fund. Each secondary agricultural school has a marked increase in attendance and is being conducted at the same or a decreased expense from what it was a year ago. The secondary schools had a deficiency of nearly \$14,000 to be covered by the last legislature. There will be no deficiencies under the management of President Gault and the present board. In other words, President Gault will be able to show that good common, hard, business sense and political honesty can save from sixty to one hundred thousand dollars per year in the management of the affairs of this one department.

When Mr. Gault became president of the Board of Agriculture, the department had three sets of inspectors. The inspection of each was ineffectual in that with the limited number of inspectors employed by each, it was impossible to cover any considerable part of the state. President Gault recognized at once that it was absurd to have three sets of men covering the same territory when one set of men could perform all the duties that all three of them were performing. In other words, he decided that a dairy and ice cream factory inspector should fit himself to competently inspect mill products. The result is that the same number of inspectors are efficiently and thoroughly covering the state,—something that has never been done until he took charge of the department.

If we are not mistaken as to the desires of the public, it is certain that every public official who has an ambition to make good and go higher in the public service had best heed and follow the example of President Frank Gault of the Board of Agriculture.
